Secure Authentication Setup   FAQs

To protect your privacy, *Access PIN* implements Secure Authentication. Setup is easy and only takes a few minutes. Here is what to expect:

- **Step 1 – Select a picture and personal phrase.** These visual cues are displayed when you sign on and are your assurance that it is safe to enter your access information.

- **Step 2 – Provide answers to challenge questions.** These questions may be asked during the sign on process to confirm that an authorized individual can access account information online.

- **Step 3 – Register your computer (or not).** We allow you to register computers you commonly use to access your account information online. This authorization helps us ensure that only recognized locations are accessing your information.

- **Step 4 – Verify Email Address.** We ask you to verify your name and email address.

Click **Begin Setup Now** to start. This process takes only a few minutes to complete and is vital in our efforts to prevent fraudulent activity.

Begin Setup Now

Your privacy is our responsibility.

We will maintain the confidentiality of your personal information in accordance with our privacy policy.

Passphrase and Security Image

Secure Authentication Setup	FAQs

Step 1 – Select a picture and personal phrase
Please select a picture and passphrase. These visual cues are displayed when you sign on and are your assurance that it is safe to enter your access information. You can use the default picture next to your personal phrase, or choose a different picture. Please be sure to enter a personal phrase before clicking **Continue Setup**.

Enter a personal phrase:

golf cart

Your personal phrase will always appear alongside your picture when you sign on. A phrase can be up to 40 characters long.

Continue Setup

You may select a different picture by clicking on the picture you wish to use.

You can browse through additional pictures by category. Simply select the category and click **Browse**.

Category: Select a Category ▾   Browse   Select Browse to view more Security Images options.

Need To Cancel ? We encourage you to complete the authentication setup now. If you cancel setup, you'll need to start from the beginning the next time you login.

Setup Security Questions and Answers

Secure Authentication Setup	FAQs

Step 2 – Provide answers to challenge questions.

Please use the following drop-down lists to choose four questions which are relevant to you, and then enter answers to those questions. These questions may be asked during the sign on process to confirm that an authorized individual can access account information online. When you are done, click **Continue Setup**.

Note: We recommend you provide answers which you can easily remember. For best results, do not enter made-up or fake answers, and avoid answers with tricky spelling or punctuation.

Step 7: Select "Register This Computer" if you wish to register this computer as a location that is authorized to access your account information. A registered computer allows for faster sign on. Otherwise select "Do Not Register This Computer" if you do not want this computer identified as a registered location for accessing your information. Select "Continue Setup" to move forward in the process.

Step 8: Confirm/complete the security setup process. This screen gives the user a last opportunity to confirm their email address. Select "Continue Setup" to move forward in the process.

Step 9: Submit the user profile and security configurations.

Step 10: Select "Submit Setup Information" to continue.

Step 11: Select "Proceed to Account." You will then be able to select the link "View PIN" and view the PIN associated with each card on the account.

Step 12: Select View PIN to your MyHSA Debit Card PIN (Note: The Debit Card PIN will open in a new window please disable any pop-up blockers in order to view the PIN.)
